Results indicate the second choice for respondents who named Biden as their first choice.

METHODOLOGY

A total of 1,006 adults were interviewed by telephone nationwide by live interviewers calling both landline and cell phones. Among the entire sample, 26% described themselves as Democrats, 23% described themselves as Republicans, and 51% described themselves as independents or members of another party.

All respondents were asked questions concerning basic demographics, and the entire sample was weighted to reflect national Census figures for gender, race, age, education, region of country, and telephone usage.

Crosstabs on the following pages only include results for subgroups with enough unweighted cases to produce a sampling error of +/- 8.5 percentage points or less. Some subgroups represent too small a share of the national population to produce crosstabs with an acceptable sampling error. Interviews were conducted among these subgroups, but results for groups with a sampling error larger than +/-8.5 percentage points are not displayed and instead are denoted with "N/A".

Q4. I'm going to read a list of people who may be running in the Democratic primaries for president
    in 2016. After I read all the names, please tell me which of those candidates you would be most
    likely to support for the Democratic nomination for president in 2016, or if you would support
    someone else.
Q5. And who would be your second choice?
